

PMT Courses - A Level Mock Preparation 2022

Our one-day and two-day online courses are a great way for students to prepare for their January mock exams. Our experienced tutors will guide students through important topics likely to come up in exams. Alongside revision, exam technique will be covered throughout so students learn how to maximise marks. Students will go into their exams feeling confident and prepared.

Our Christmas courses take place **online** using Google Classroom.

How do our online courses work?

- We use Google Classroom for our online courses. Students are sent the link to join the Classroom the day before the course starts.
- Inside the Classroom students will find digital copies of all the handouts.
- The live lessons take place on Google Meet. On the morning of the course, the Meet link will be shared in the Classroom's stream.
- Lessons are recorded and saved in the Classroom for students to revisit whenever they wish. Any resources used by teachers during the course are also saved in the Classroom.
